KLINIK

We serve the solution

temp-rite International is a partner you can rely on to deliver innovative and sustainable solutions in the field of meal distribution.

CARE

Continue →

temp-rite is double ISO-certified!

Quality management:

Hospitals, old-people's homes and care-providing institutions attach great importance to the quality of the services and products their suppliers deliver. temp-rite's Quality Management System meets all the requirements set out in DIN EN ISO 9001.

Ecological awareness:

temp-rite Germany also has DIN EN ISO 14001 environmental certification. This underlines just how seriously we take protecting the environment, and achieving a sustainable balance between commercial and ecological considerations.

temp-rite delivers optimized meal-distribution systems

temp-rite

Touchscreen Pro

- = Intuitive interactive controls
- = Graphical representation of all functions and operating parameters
- = Smart apps to control all cycles and applications
- = Automatic HACCP documentation
- = Data transfers on USB sticks, or via WiFi or LAN

temp-rite delivers optimized meal-distribution systems

temp-rite

Food-core temperature sensor (option)

= Dependable temperature checks and documentation

temp-rite delivers optimized meal-distribution systems

temp-rite

Sneeze guard (option)

= Hygienic food presentation with heat lamps, and worktop illumination with LEDs

temp-rite delivers optimized meal-distribution systems

temp-rite

Convection heating

= Precisely controllable heating of food compartment for optimum meal regeneration

temp-rite delivers optimized meal-distribution systems

temp-rite

Refrigeration (option)

= Static cooling of one or both food compartments for Cook-Chill or Cook-Freeze applications

temp-rite delivers optimized meal-distribution systems

temp-rite

Fold-away side shelf (option)

= Additional storage surface
for dishes, trays etc.

temp-rite delivers optimized meal-distribution systems

temp-rite

Compartment for technical components

= Directly accessible for easy and cost-efficient maintenance

temp-rite delivers optimized meal-distribution systems

temp-rite

Tray rail (option)

= Convenient dispensing of meals for your diners

Highlights that only Temp-Classic Pro offers:

temp-rite

Touchscreen Pro

In the development phase, temp-rite focused on delivering solutions that were safe and, in terms of operating and cleaning routines, ergonomically well conceived. The new Touchscreen Pro control interface, for example, is intuitive and easy to use. What's more, it provides all the HACCP-compliant monitoring and documentation features that are nowadays expected.

Highlights that only Temp-Classic Pro offers:

temp-rite

Insulated shuttle trolley

All meals can be prepared in a central kitchen and transported to the Temp-Classic Pro at the desired location in shuttle trolleys.

An economic, safe and hygienic means of transport.

Removable transfer modules

Removable slide-in frames of varying capacity for GN containers or wire grids.

Simple, staff-friendly meal preparation / easy, hygienic cleaning of food compartments.

Highlights that only Temp-Classic Pro offers:

temp-rite

Heated glass worktop

Separate heated worktop sections made of heat-resistant safety glass.

Efficient, easy-to-regulate heat maintenance during meal service.

High flexibility

Four standard versions plus a wide variety of add-on options.

Temp-Classic Pro can be adapted exactly to your requirements.

The Temp-Classic Pro by temp-rite sets new standards in buffet meal service

temp-rite

Functional

- transfer modules of varying capacity
- partially heatable worktop
- refrigeration option for one or both meal compartments

Ergonomically optimized

- optional tray rail and fold-away side shelf
- easy to manoeuvre
- makes life easy for serving staff

Easy to work with

- ideal working height
- programmable work cycles
- LED illumination of the worktop (optional)

Flexible

- four standard versions/sizes
- individually configurable
- wide range of add-on options

Safe

- worktop made of heat-resistant safety glass
- door seals prevent loss of energy, and can be replaced without tools
- removable transfer modules facilitate hygienic cleaning of the cart interior

Intelligent

- intuitive touchscreen control interface with graphical display
- automatic HACCP documentation; data transfer on USB sticks, or via WiFi or LAN
- smart apps for ease of operation
